

## 1. World Health Day 2026 – Focus on Science & Collaboration

- Celebrated globally on **April 7**
- Theme: “**Together for Health. Stand with Science**”
- Emphasis:
  - Evidence-based medicine
  - Global collaboration
  - Strengthening healthcare systems
- Indian leadership highlighted:
  - Need for **inclusive & resilient healthcare**
  - Appreciation for healthcare workers

👉 Clinical relevance:

- Reinforces **trust in scientific guidelines over misinformation**
- 

## 2. Personalized Medicine Gains Momentum in India

- **AIIMS Bhopal** collaborates with European experts for **pharmacogenomics research**
- Goal:
  - Tailor drug therapy based on **genetic profile**
- Benefits:
  - Better efficacy
  - Reduced adverse drug reactions
  - Faster recovery

👉 Future trend:

- Shift from “**one-size-fits-all**” → **precision medicine**
-

### 3. Rapid Expansion of Hospital Infrastructure Post-COVID

- Significant increase in:
  - Hospital beds (20–25% rise in some cities)
  - ICU & oxygen-supported facilities
- Growth driven by:
  - Pandemic preparedness
  - Rising non-communicable diseases

👉 Clinical impact:

- Better **critical care availability**
  - Improved **emergency preparedness**
- 

### 4. Healthcare Workforce Issues – Ambulance Staff Protest

- Ambulance workers raised concerns over:
  - Long working hours
  - Low wages & compliance issues
- Risk:
  - Potential disruption in **emergency services**

👉 System insight:

- Need for **better workforce policies & support systems**
- 

### 5. Patient Safety Concerns Highlighted

- Reports flagged:
  - Drug quality issues
  - Medical negligence cases
  - Weak regulatory implementation
- Delay in full enforcement of **Right to Health framework**

👉 Clinical takeaway:

- Importance of:

- **Standard treatment protocols**
  - **Quality assurance systems**
- 

## **6. Rising Cardiovascular Risk in Young Indians**

- Data suggests:
  - Increasing heart disease in **30–44 age group**
- Causes:
  - Sedentary lifestyle
  - Stress & metabolic disorders

 Practice point:

- Early screening & aggressive **risk factor modification**
- 

## **7. Tribute to Veteran Cardiologist**

- Noted Indian cardiologist **Mani Kumar Chetri** passed away (April 5, 2026)
- Contributions:
  - Public health leadership
  - Cardiology advancement in India
