

Healthcare Infrastructure & Policy

- **Push for robotic surgery in government hospitals**
 - Proposal to introduce robotic surgical systems to reduce long waiting times and improve efficiency in public hospitals.
 - **ICU standardization initiative (Rajasthan)**
 - New guidelines being prepared to improve ICU care, focusing on:
 - infection control
 - trained staff
 - critical equipment availability
 - Aim: strengthen emergency and critical care systems.
-

Medical Education & Institutions

- **AIIMS Rewari recruitment begins**
 - First hiring drive launched to start OPD services by **March–April 2026**.
 - Planned: 750-bed hospital and MBBS program rollout soon.
- **NEET-PG seat paradox (recent trend)**
 - Despite increasing medical seats, **many PG seats remain vacant** due to:

- high fees
 - infrastructure gaps
 - mismatch in specialization demand
-

Organ Donation & Transplant Challenges

- **Low cadaver organ donation in Rajasthan**
 - Only **12 donations since 2025**, despite awareness campaigns.
 - Major issue: lack of transplant infrastructure and ICU facilities.
-

Healthcare Industry & Expansion

- **Aster DM Healthcare expansion**
 - Expected merger and expansion plans may add **4,000+ beds by 2030**, boosting oncology and hospital capacity.
