

1. Crackdown on “Missing Doctors” in Rajasthan

- Government initiated action to terminate **~697 doctors absent from duty (some for decades)**
 - 👉 **Clinical Impact:**
 - Severe shortage of specialists (OBG, pediatrics, surgery)
 - Highlights need for **accountability & workforce reforms**
-

2. Mental Healthcare Act Implementation Accelerated

- Punjab, Haryana & Centre directed by High Court to **implement mental health rules urgently**
 - Key gaps:
 - Lack of Mental Health Review Boards
 - Poor rehabilitation facilities
 - 👉 **Insight:** Mental health infrastructure still **underdeveloped despite legal framework**
-

3. Medical Education Transformation Highlighted

- At Bharati Vidyapeeth convocation, govt emphasized:
 - Improved infrastructure
 - Growing global competence of Indian graduates
 - 👉 **Trend:** India moving toward **global leadership in medical education**
-

4. Sudden Cardiac Death in Young Adult Raises Concern

- 23-year-old died after chest pain, initially mistaken as gastric issue
 - 👉 **Clinical Takeaway:**
- Rising **early cardiac events in young population**
- Importance of **early evaluation of chest pain (don't ignore atypical symptoms)**

🌟 5. Repeated Fireworks Factory Explosions

- Another explosion in Kerala killed **13+ people within days of previous incident**
 - 👉 **Public Health Concern:**
- Burn injuries + occupational hazards
- Need for stricter **industrial safety regulations**

🌡️ 6. Heatwave Preparedness Intensifies (Ongoing)

- Hospitals continue setting up **heatstroke units & emergency preparedness systems**
 - 👉 **Clinical Load Expected:**
- Heatstroke
- Dehydration
- Electrolyte imbalance
