

1. ICMR Launches Biomedical Technology Transfer Platform

- The Indian Council of Medical Research (ICMR) has launched a **Biomedical Technology Transfer Platform** to accelerate the commercialization of indigenous healthcare innovations.
- The platform aims to:
 - Facilitate technology transfer
 - Support intellectual property (IP) management
 - Promote industry–academia collaboration
 - Speed up the translation of research into clinical practice

👉 **Research Insight:** The initiative is expected to strengthen India's biomedical innovation ecosystem and improve access to home-grown healthcare technologies.

2. Neuberg Diagnostics Acquires Majority Stake in NM Medical

- Neuberg Diagnostics has acquired a majority stake in **NM Medical**, a leading diagnostics chain.
- The acquisition will expand:
 - Diagnostic services
 - Preventive health check-ups
 - Advanced laboratory testing
 - Regional healthcare access

👉 **Healthcare Industry Insight:** Consolidation in the diagnostics sector is expected to improve service reach and strengthen integrated diagnostic networks across India.

3. Ayush Ministry and IndiaAI Partner to Advance AI in Traditional Medicine

- The **Ministry of AYUSH** and **IndiaAI** have signed an MoU to accelerate the adoption of Artificial Intelligence in traditional medicine.
- The collaboration will focus on:
 - AI-based research
 - Digital knowledge repositories
 - Evidence generation
 - Responsible AI development

👉 **Digital Health Trend:** AI is increasingly being integrated into both modern and traditional healthcare systems to support research and clinical innovation.

4. India Crosses 100 Crore Linked Digital Health Records

- Under the **Ayushman Bharat Digital Mission (ABDM)**, more than **100 crore health records** have now been linked with ABHA accounts.
- The milestone strengthens:
 - Continuity of care
 - Digital health records
 - Health information exchange
 - Patient-centric healthcare delivery

👉 **Healthcare Impact:** Expanding digital health infrastructure is improving interoperability and enabling more efficient healthcare services across the country.

5. India Maintains Enhanced Ebola Surveillance

- The Government of India continues enhanced surveillance at international points of entry following the global Ebola public health emergency.
- Measures include:
 - Screening of international travellers
 - Surveillance of suspected cases
 - Preparedness of healthcare facilities
 - Infection prevention and control measures

👉 **Public Health Alert:** No Ebola cases have been detected in India, but continued vigilance remains essential to prevent importation of the disease.

6. NEET-PG 2026 Application Correction Window Nears Closure

- The National Board of Examinations reminded candidates that the **NEET-PG 2026** application correction window closes on **28 July 2026**.
- Applicants were advised to verify and update their details before the deadline.

👉 **Medical Education Update:** Timely completion of application corrections is important to avoid issues during the postgraduate medical admission process.
