

## 1. Invest India and APACMed Join Hands to Strengthen India's MedTech Ecosystem

- **Invest India** and the **Asia Pacific Medical Technology Association (APACMed)** have signed an MoU to accelerate growth in India's medical technology sector.
- The collaboration will focus on:
  - MedTech innovation
  - Investment promotion
  - Digital health
  - Research partnerships
  - Indigenous medical device manufacturing

👉 **Healthcare Innovation:** The initiative is expected to strengthen India's position as a global MedTech innovation and manufacturing hub.

---

## 2. Andhra Pradesh Sanctions ₹32 Crore to Strengthen Rayachoti Health Infrastructure

- The Andhra Pradesh Government has approved **₹32 crore** to upgrade healthcare infrastructure in Rayachoti.
- The project includes:
  - Improvement of hospital facilities
  - Modern medical equipment
  - Enhanced healthcare services
  - Better patient care infrastructure

👉 **Healthcare Impact:** Continued investment in district-level healthcare infrastructure is expected to improve access to quality medical services in the region.

---

## 3. India Medical Device 2026 Conference to Highlight Medical Technology Innovation

- **India Medical Device 2026** will bring together policymakers, industry leaders, clinicians, and innovators to discuss:
  - Medical device manufacturing
  - Regulatory reforms
  - Innovation
  - Export opportunities
  - Self-reliance in healthcare technology

👉 **Industry Insight:** The event reinforces India's focus on expanding domestic medical device production and reducing import dependence.

---

#### **4. Connected Healthcare Networks Continue to Expand Across India**

- Healthcare providers are increasingly adopting integrated digital platforms that support:
  - Electronic health records
  - Advanced diagnostic technologies
  - AI-assisted clinical workflows
  - Coordinated patient care

👉 **Digital Health Trend:** Connected healthcare ecosystems are helping improve continuity of care and operational efficiency across hospitals.

---

#### **5. Diagnostic Services Expand Through Strategic Partnerships**

- Healthcare organizations are strengthening diagnostic access through collaborations offering:
  - Home sample collection
  - Digital laboratory reports
  - Preventive health packages
  - Wider geographic coverage

👉 **Clinical Insight:** Improved access to diagnostic services can support earlier disease detection and better management of chronic conditions.

---

#### **6. Medical Leadership Strengthened in Armed Forces Healthcare**

- **Air Marshal Sandeep Thareja** has been appointed as the next **Director General Armed Forces Medical Services (DGAFMS)**, effective **31 August 2026**.
- The DGAFMS oversees medical services for India's Armed Forces.

👉 **Healthcare Administration:** Strong leadership in military healthcare is essential for advancing medical preparedness, clinical excellence, and healthcare delivery for defence personnel.
